

# The Collage Project

## Why?

The collage is a visual representation of an idea. It allows students to use their imaginations as they select visual symbols which depict events, feelings, and attitudes on a given subject.

## How?

Divide the class into small groups and give them a topic. They will need to discuss the topic and decide on symbols which might be used to represent the idea. Provide pictures, words, and letters, either available in magazines, newspapers, etc., or already cut out, poster board, paste, scissors. Watch the progress of the project but do not give suggestions. Make them come up with their own ideas. After the collages are completed, let each group show its work. Do not let the group showing the collage talk about its work, but ask for responses from the rest of the group. "What feelings does the collage give you?" Write the responses or summaries of the responses on the blackboard. Ask the students who made the collage if these comments agree with what they intended and if they wish to make additional responses or comments. Continue until all groups have shown their work and a full discussion has transpired.
