Pursuant to the provisions of Section I through 23, Act 898 of 1979 and under the authority of Section I, Act 590 of 1971 of the laws of the State of Arkansas, the Director of the Arkansas Department of Health or duly authorized agent, as specified by law, is giving public notice of the publication of the List of Controlled Substances for the State of Arkansas.

Due consideration has been given applicable federal regulations, current scientific knowledge regarding the listed substances, the evidence of actual or relative potential for abuse, the history and current patterns of abuse, the risk to the public health, and potential to produce psychic or psychological dependence liability.

Based on these considerations the attached listing of the Schedule of Controlled Substances and the corresponding drugs that are included in each schedule is hereby promulgated by the Director of the Arkansas Department of Health as the Controlled Substance List of the State of Arkansas.

Each controlled substance or basic class thereof, has been assigned an “Administration Controlled Substance Code Number” for purposes of identification. These numbers are for internal management and are used as a means to identify substances with complex and cumbersome chemical names.

Next to the code number is the date the substance was placed in schedule by the Director of Arkansas Department of Health.

I, Clyde Frazier, P. D., Director of Pharmacy Services and Drug Control for the Arkansas Department of Health, do hereby certify that the documents attached hereto are true and correct copies of the current List of Controlled Substances adopted by the Arkansas Department of Health in accordance with Arkansas state law.
