### Explanation of Updates

Section 242.121 is being revised. The **NU** modifier is being added for use with the procedure codes. "Thik and Clear" has been added to the list of food thickeners.

Section 242.180 is being revised. New procedure codes, procedure code deletions and other information regarding orthotic appliances promulgated in the March 1, 2006 Official Notice titled "2006 HCPCS Procedure Code Conversion" have been added to the program manual. Procedure code **L0472** does not require prior authorization. Procedure code **L2430** is payable for all ages. Procedure code **L4392** is for use only for beneficiaries age 21 and over. Typographical errors have also been corrected.

Section 242.193 is included to advise providers of the billing procedures involved when repair charges for both parts and labor are provided on the same date of service for augmentative communication devices. Other minor changes have been made in the section.

Paper versions of this update transmittal have updated pages attached to file in your provider manual. See Section I for instructions on updating the paper version of the manual. For electronic versions, these changes have already been incorporated.

**242.121 Food Thickeners, All Ages**

10-15-06

Food thickeners, including “Thick-It,” “Thick-It II,” “Simply Thick,” “Thick and Easy” and “Thik and Clear” are not subject to the \$250 medical supply benefit limit.

The modifier **NU** must be used with the procedure code found in this section and when food thickeners are to be administered enterally, the modifier “**BA**” must be used in conjunction with the procedure code.

When food thickeners are billed, total units are to be calculated to the nearest full ounce. Partial units may not be rounded up. When a date span is billed, the product cannot be billed until the end date has elapsed.

The maximum number of units allowed for food thickeners is 16 units per date of service.

Procedure Code	M1	M2	TOS	Description
B4100	NU		H	Food thickener, administered orally, per oz.
B4100	NU	BA	H	Food thickener, administered enterally, per oz.

**242.180 Orthotic Appliances, All Ages**

10-15-06

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under 21 years of age or modifier **NU** for beneficiaries age 21 and older. When a second modifier is listed, that modifier must be used in conjunction with either **EP** or **NU**.

Additionally, when billed on paper, procedure codes must be billed with a type of service (TOS) code “6” for individuals under age 21 or TOS code “H” for individuals age 21 and older.

Additionally, when billed on paper, procedure codes must be billed with a type of service (TOS) code “6” for individuals under age 21 or TOS code “H” for individuals age 21 and older.

Modifiers in this section are indicated by the headings M1 and M2. Type of service is indicated by the heading TOS.

Prior authorization requirements are shown under the heading PA. If prior authorization is needed for individuals age 21 and older, that information is indicated with a “Y” in the column; if not, an “N” is shown. When prior authorization is not applicable (for U21) that information is shown with an “N/A” in the column.

When codes are payable for all ages, “All” is indicated in the column, “U21” is shown when the code is payable only for individuals under age 21 and “21+” is shown when the code is payable only for those individuals age 21 and older.

\*\* This item is not a covered service for the diagnosis of Carpal Tunnel Syndrome prior to surgery.

\*\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product.

■ Effective for dates of service on and after March 1, 2006, this procedure code does not require prior authorization; however, the beneficiary’s medical condition must fall within the diagnosis range of 250.00 and 251.93.

**242.193****Augmentative Communication Device, All Ages**

10-15-06

The augmentative communication device must be billed using the procedure code assigned to each component. The specific components will be reimbursed, as needed, for the procedure codes listed below and will count toward the lifetime limit of \$7,500 per beneficiary.

Procedure codes found in this section must be billed either electronically or on paper with modifier EP for beneficiaries under 21 years of age or modifier NU for beneficiaries age 21 and over. When a second modifier is listed, that modifier must be used in conjunction with either EP or NU.

Additionally, when billed on paper, procedure codes must be billed with a type of service (TOS) "6" for individuals under age 21 or TOS "H" for individuals age 21 and over.

Modifiers in this section are indicated by the headings M1 and M2. Type of service is indicated by the heading TOS. Prior authorization requirements are shown under the heading PA. If prior authorization is needed, that information is indicated with a "Y" in the column; if not, an "N" is shown.

**NOTE: Attach a manufacturer's invoice to the claim and indicate the item or parts billed on the invoice. A description and the amount billed for each item must be attached to the claim. If more than one item is billed under a procedure code, the description and billed amount of each item must be listed separately under each procedure code and attached to the claim. The total billed for each procedure code should be reflected in field 24F.**

◆ Prior authorization is not required when **other** insurance pays at least 50% of the Medicaid maximum allowable reimbursement amount.

\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product.
