

Proposed 2013-2014 General Hunting Regulations Approval

Committee: Regulations

Date: April 17, 2013

Explanation:

Recommended revisions for hunting related regulations and new proposals were presented at the March meeting for Commission review and consideration. The regulations committee voted unanimous to strike the recommendation to change the checking time from 24 to 12 hours from the proposals last month. The amended proposals will be presented at this meeting for Commission approval. These proposals include calendar adjustments, code revisions and code clarifications. Included, with the backup material, is a summary of recommended changes and a color coded copy of affected codes.

2013-2014 HUNTING REGULATIONS SUMMARY OF PROPOSALS

Deer

1. Add all states and Canadian Provinces to the carcass importation restriction list in code 05.26, by adding this language addendum S1.01 can be deleted. The lands between the Mississippi River levees in neighboring states of Tennessee and Mississippi will be excluded.

Code/Addendum: 05.26, S1.01

Justification

The Arkansas Game and Fish Commission approved the carcass importation restriction in October 2005 as an attempt to decrease Arkansas's chances of acquiring CWD via infected carcass importation. Currently, 36 states and five Canadian provinces have a ban or restriction on the importation of hunter harvested cervid parts.

With the spread of CWD, new states are becoming positive on an annual basis. The spread of this disease is directly linked to the transportation of live cervids and cervid carcasses.

In order to increase Arkansas's protection and increase consistency in our regulations, this proposal would place all states and Canadian provinces on the carcass importation restriction list. This would result in hunters following the guidelines on animal parts that can enter Arkansas regardless of origin.

2. Eliminate adult mentors from possessing firearms for their hunting purposes during the special youth modern gun deer hunts.

Code: 11.05

Justification

The AGFC has set aside two weekends exclusively for youth hunters to deer hunt. During these hunts, youths are required to be accompanied by an adult either 18 or 21 years old, depending on the youth's hunter education status.

Wildlife officers have observed the accompanying adult carrying a firearm with the intention of harvesting game or feral hogs. The purpose of the Special Youth Modern Gun Deer Hunt is to solely provide opportunity for the youth. This proposal would

eliminate the ability of the adult to carry a firearm, with an exception for concealed carry, while hunting with a youth during the Special Youth Modern Gun Deer Hunt.

3. Add “Private Land” to the antlerless only modern gun deer hunt.

Addendum: A1.01

Justification

To ensure hunters are aware this hunt applies only to private lands and not public lands.

4. Modify boundaries of deer zones 11 and 13.

Addendum: E1.01

Justification

The current boundary descriptions of deer zones 11 and 13 near Hot Springs has resulted in confusion among some hunters. The confusion results from highway construction and development around Hot Springs that was not in place during the initial development of common boundaries of deer zones 11 and 13. This proposed change would increase clarification and assist with an area west of Hot Springs that is currently experiencing a high deer population and increased human deer conflicts. This small portion of deer zone 11 will be placed in deer zone 13, which has a much more liberal season structure.

5. Modify harvest strategy for deer zone 11 to allow doe harvest the entire muzzleloader and modern gun seasons.

Addendum: A1.01

Justification

Doe harvest in deer zone 11 has gradually been liberalized. In 2003, the total doe harvest was 703 does (1 per 3,236 acres of deer habitat). The female harvest has progressively increased to a high in 2012 of ~2,400 does (1 per 948 acres of deer

habitat). This proposal would not increase the doe bag limit for deer zone 11, but would allow hunters more opportunity to harvest a doe. The expected result of this proposal is a slight increase in the doe harvest while maintaining a conservative season structure. This proposal would also assist in balancing harvest sex ratios which have been as high as 8:1 (buck:doe), but recently around 2:1 (buck:doe).

The most recent biological data from 168 females shows that 45% percent are 3.5 years old and older. These data suggest that doe harvest can be increased without negatively impacting the deer herd. This proposal is a small step in increasing the doe harvest without modifying the bag limit.

6. Add deer zone 3 to the Private Lands Antlerless Only Modern Gun Deer Hunt.

Addendum: A1.01

Justification

The deer season structure in deer zone 3 has been gradually liberalized. In 2003, a total of 1,093 does were harvested in deer zone 3 which equates to a harvest of one per 2,087 acres of deer habitat. Recent doe harvest densities have been around one per 300 acres of deer habitat. This harvest density is far more acceptable in terms of deer management. Harvest sex ratios have peaked at 5.9:1 (buck per doe) in 2003 to an average of 1.5:1 (buck per doe) in recent years.

A total of ~500 doe biological samples have been collected annually from deer zone 3; of these samples, as many as 57% have been 3.5 years of age and older. This suggests that doe harvest can be increased without negatively impacting the herd. This proposal would conservatively increase doe harvest without modifying the bag limit.

7. Remove the Wildlife Importation permit, VS-127 form, and trailer sealing requirement from the live cervid importation code.

Code: 09.11

Justification

The current requirements for moving live cervids through Arkansas require the owner to obtain a VS-127 form and the container must be sealed while in the state. It has been determined by the USDA that these requirements contradict the national CWD Program and justifies preemption. After discussing this topic with the Commission's Regulations Committee, it was recommended that we remove the permit requirements, VS-127 form, and the sealing of the trailer, but maintain the requirement for prior notification before individuals transport live cervids through Arkansas.

Turkey

No change.

Alligator

No change.

Bear

8. Change archery season opening date in bear zone 2 to October 1 instead of September 15 (including WMAs in zone 2), and re-instate the quota of 150 in bear zone 2.

Addenda: A1.08, C1.02

Justification

The opening date of bear season in zone 2 was moved to September 15 to help increase the bear harvest. The target harvest of 150 bears was never reached and the season was liberalized to “catch up” for years of under harvest. Three of the last five years have had harvests exceeding 200 bears. Nuisance complaints over the past two years have indicated that the population has been effectively reduced. The harvest strategies for the zone need to be moved back to the more conservative strategies of the past which includes moving the opener back to October 1 and re-instating the 150 bear quota. The 150 bear quota needs to be separated by month to ensure that gun hunters have bear hunting opportunity. Approximately 20% of the bears in zone 2 have been harvested after November 1. The quota should allow harvests of 125 bears during the October hunt and 25 bears during the November hunt. An October 1 opener will ensure a consistent annual opening date. It will also serve to ease harvest pressure on adult females, which are more susceptible to harvest earlier in the year.

9. Require nonresident bear hunters to purchase a nonresident annual all game license to harvest a bear.

Code: 03.04

Justification

Non-residents currently account for approximately 16% of the annual bear harvest. The AGFC does not currently have any special license requirements for non-resident bear hunters. In fact, bears may be taken by non-residents with the purchase of a \$50 one-day hunting license since bear tags do not exist. AGFC staff examined non-resident bear hunting fees for several states and determined that costs ranged from approximately \$200-\$500. The simple solution would be to require non-residents to purchase an annual \$300 hunting license rather than creating a special bear tag.

Captive Wildlife

10. Insert language in the requirements for Wildlife Breeder/Dealer, Commercial Wildlife Hunting Resort, and Game Bird Shooting Resort permits.

Addenda: F1.01, F1.02, F1.03

Justification

This will clarify the current code to ensure that captive wildlife facilities are not permitted unless they have acquired their stock in a legal fashion. This will also make it clear that animals may not be captured from the wild in Arkansas to become stock in these facilities.

11. Remove exception 4 from code 05.04.

Code: 05.04

Justification

This exception is redundant as exception 2 already references code section 9 in regards to sale of wildlife.

12. Implement standards for caging of non-native wildlife, require that male and female non-native wildlife be separated so as to prevent breeding, and require specific documentation of ownership.

Code: 09.02

Justification

This proposal will institute provisions that already apply to native wildlife pets. The caging standards are necessary to prevent escape of non-natives that may have a negative impact on wild populations of native Arkansas wildlife. The separation of the sexes is necessary to prevent breeding, for which a Wildlife Breeder/Dealer permit is required.

Elk

13. Add an exception to allow private inholdings on a WMA to participate in the Elk Management Assistance Program.

Code: 02.02

Justification

This change will allow for any private lands within the five county Elk Management Assistance Program (EMAP) zone to participate in the private lands elk hunt. Currently, these in-holders cannot participate in the hunt according to code 02.02. This will also help reduce the number of complaints caused by nuisance elk.

14. Remove 2 pm curfew for EMAP private land elk hunt. Allow antlerless hunters to hunt all day and call the wildlife hotline at 7 pm each evening to determine if the antlerless quota has been filled. Bull hunters must stop hunting between the hours of 12 pm-2 pm and must call the wildlife hotline at 2 pm to determine if the bull quota has been met.

Code/Addendum: No code or addendum change required.

Justification

Private landowners would like to be able to hunt elk during the evening. Allowing the EMAP permit holders hunt all day will help fill the EMAP quota more quickly. This will allow landowners who have elk on their property more opportunity to harvest an elk.

15. Add crossbow as a legal method for harvesting elk.

Code: 06.10

Justification

Crossbows are allowed to hunt all other big game species. This will help streamline the elk regulations to be cohesive with other programs regulations.

16. Clarify and revise the public land elk zones by adding the descriptions in the code which were established prior to the 1998.

Addendum: E1.10

Justification

These zones were established prior to the 1998 hunting season, which is when elk hunting was first allowed during the modern era but were never added to the addendum. Since elk movements have changed over the years, these zone boundaries require modification.

17. Change the season dates from September to mid-October for elk zones 1, 2, 3 and 4.

Addendum: A1.09

Justification

September bull elk hunts were implemented to allow hunters the opportunity to hunt during the bugling season. Changing the hunt to mid-October will still allow for hunters to enjoy a bugling season bull hunt, and also give the ability to remove some antlerless elk. Moving the first season to mid-October will allow calves to reach a sufficient weaning age before cows are harvested. This change will help spread the antlerless hunters out over two seasons instead of putting them all in one season like in the past. As the elk population increases it will be difficult to safely permit enough hunters to fill the antlerless quota during one hunt.

Quail

No change.

Squirrel

No change.

Rabbit

No change.

Furbearer

18. Clarify code 03.03 so that it doesn't seem like a trapping license is needed to hunt furbearers.

Code: 03.03

Justification

The current language implies that a trapping license is needed to hunt furbearers.

19. Restore a reference to code 17.01 which outlines legal trapping methods that can be used to take nuisance furbearers under exception 3 to code 05.10.

Code: 05.10

Justification

This will ensure that only legal trapping techniques are used for the take of these nuisance furbearers.

20. Remove exception 3 from Code 17.07.

Code: 17.07

Justification

None of these animals are furbearers and it is not necessary to include them in a code dealing with purchase and sale of furbearers.

21. Restore requirement for non-resident trappers to report on their harvest.

Code: 17.09

Justification

This requirement was in place but was lost during the code revision permit when separate code requirements for each type of permit were consolidated into code section 3. This report allows us to monitor harvest by non-resident trappers, which can account for significant percentages of harvest of certain species.

22. Remove exception 3 from addendum A1.05 that reference nuisance coyote.

Addendum: A1.05

Justification

This exception is not necessary as it is covered in exception 1 of the nuisance wildlife code 05.10.

23. Clarify that bobcat and coyote seasons are closed during turkey and squirrel seasons only on WMAs where turkey or squirrel season is closed.

Addendum: C1.09

Justification

The current code implies that if turkey season is closed on a WMA then no bobcat or coyote hunting is allowed at any time.

WMA General Regulations

24. Modify antler restrictions on *Dave Donaldson Black River WMA* from the 3 point rule to 15-inch inside spread or 18-inch main beam.

Addendum: C1.14

Justification

The intent of the Sweet 16 is to increase diversity in our public land management strategies. These 16 areas are designed to manage the females to ensure a healthy, productive, and balanced deer herd. Males will be managed for quality bucks with majority of the harvest reaching 3.5 year old. The 2012 regulation package contained changes in antler restrictions for 10 of the Sweet 16. This proposal would result in all the Sweet 16 WMAs having an antler restriction that are specifically tailored to move majority of the buck harvest into a 3.5 and older age class.

25. Modify antler restrictions on *Dr. Lester Sitzes III Bois d'Arc, Hope Upland, McIlroy Madison County, Scott Henderson Gulf Mountain and Shirey Bay Rainey Brake WMAs* from the three point rule to 12-inch inside spread or 15-inch main beam.

Addendum: C1.14

Justification

The intent of the Sweet 16 is to increase diversity in our public land management strategies. These 16 areas are designed to manage the females to ensure a healthy, productive, and balanced deer herd. Males will be managed for quality bucks with majority of the harvest reaching 3.5 year old. The 2012 regulation package contained changes in antler restrictions for 10 of the Sweet 16. This proposal would result in all the Sweet 16 WMAs having an antler restriction that are specifically tailored to move majority of the buck harvest into a 3.5 and older age class.

26. Exempt youth hunters from antler restrictions on *Freddie Black Choctaw Island Deer Research Area WMA East Unit*.

Code/Addendum: 15.01, C1.14

Justification

Youth hunters are not currently required to abide by antler restrictions on WMAs except the Freddie Black Choctaw Island Deer Research Area WMA East Unit. Allowing youth hunters to harvest any deer will provide additional opportunity for youth hunters.

27. Decrease the deer bag limit from four to three deer during the modern gun youth permit hunt on *Freddie Black Choctaw Island Deer Research Area WMA East Unit*.

Addendum: C1.01

Justification

This change will make bag limits for all permit hunts on Freddie Black Choctaw Island Deer Research Area WMA East Unit the same.

28. Allow the use of any caliber weapon to take bobcat, fox and coyote during the bobcat, fox and coyote season on *Dardanelle and Ozark Lake WMAs*.

Code: 20.02

Justification

In many portions of both WMAs, Corps property extends up narrow drainages with private land on either side thus making the weapons restriction nearly impossible to enforce. Recent requests by hunters who like to call bobcats, foxes and coyotes, especially on the bigger islands and field systems, and would like to use center fire rifles yet are limited in the type of weapons used, have increased. This recommendation would increase hunter opportunity to use any caliber weapon to harvest bobcat, foxes and coyotes.

29. Implement firearms restriction to shotguns only (.410 and larger) with slugs (no buckshot allowed) or muzzleloading rifles shooting a single projectile on *Frierson and Holland Bottoms WMAs*.

Code: 20.02

Justification

Frierson-To make the firearm restrictions on the WMA the same as the surrounding zone.

Holland Bottoms-Weapons are being restricted due to urbanization surrounding the WMA and in order to ensure hunter safety.

30. Removing the firearm restrictions and allowing all legal modern guns during the modern gun youth permit hunt on *Steve N. Wilson Raft Creek Bottoms WMA*.

Code: 20.02

Justification

After three years of the permit hunt, it is believed there are no safety issues that would warrant firearm restrictions. Allowing rifles designed for kids will increase hunter participation and success for this permit hunt.

31. Allow other seasons to remain open during the permit hunts on *DeGray Lake WMA*.

Code: 20.17

Justification

The special youth deer permit hunt and the Mobility Impaired Waterfowl permit hunt conducted by the Corps of Engineers conflicts with Code 20.17 that states: "It is unlawful to hunt wildlife during a permit hunt on any WMA without first obtaining a permit. All seasons not named on the permit are closed during permit hunts on WMAs." As the code currently reads, deer archery and furbearer hunting would be closed during these two permit hunts. However, the Corps of Engineers only allows a small number of people to participate in these permit hunts and it is on areas that are not allowed to be hunted by the general public. It is not the intent to close any other seasons during these hunts, so adding DeGray Lake WMA as an exception would correct this.

32. Extend quail dog training from April 1 to April 15 on *J. Perry Mikles Blue Mountain SUA*.

Code: 22.01

Justification

To provide additional spring dog training opportunity for National Shoot to Retrieve Association and National Bird Hunter Association participants.

33. Adjust WMA deer bag limits to match up with surrounding zone bag limits and to align WMAs into four tiers. This includes *Bayou Meto, Beaver Lake, Bell Slough, Beryl Anthony Lower Ouachita, Big Lake, Big Timber, Camp Robins SUA, Camp Robinson WMA, Casey Jones, Cherokee, Cove Creek Natural Area, Crossett Experimental Forest, Dardanelle, Dave Donaldson Black River, DeGray Lake, Devils Knob, Ed Gordon Point Remove, Ft. Chaffee, Foushee Cave Natural Area, Frierson, Frog Bayou, Greens Ferry, Harold E. Alexander, Hobbs State Park-Conservation Area, Howard Hensley Searcy County, J. Perry Mikles Blue Mountain SUA, Jamestown Independence County, Jim Kress, Jones Point, Lake Overcup, Loafer's Glory, McIlroy Madison County, Mike Freeze Wattensaw, Mt. Magazine, Nimrod Lloyd Millwood, Norfolk Lake, Ozark Lake, Ozark National Forest, Petit Jean River, Piney Creeks, Poison*

Springs, Prairie Bayou, Rainey, River Bend, St. Francis National Forest, St. Francis Sunken Lands, Seven Devils, Steve N. Wilson Raft Creek Bottoms, Sweden Creek Natural Area, Sylamore, Terre Noire, Trusten Holder, U of A Pine Tree Experimental Station, W. E. Brewer Scatter Creek, Wedington, White Rock and Winona WMAs.

Addendum: C1.01

Justification

To simply bag limit regulations on certain WMAs by organizing them into four groups of season structures/bag limits.

34. Add a third modern gun special youth hunt on *Bearcat Hollow WMA*.

Addendum: C1.01

Justification

The US Forest Service has requested a third youth deer season to offer more public hunting opportunity for the youth of Northwest Arkansas.

35. Add an archery deer season on the *Devil's Eyebrow Unit on Beaver Lake WMA*.

Addendum: C1.01

Justification

This area has just been added to the WMA system and is located near heavily populated Northwest Arkansas cities. This has potential to become a very popular destination for the deer hunting public in that area. An archery only season this first year will allow time for AGFC and partners (ANHC and TNC) to evaluate options and alternatives appropriate for this location.

36. Change the deer modern gun youth permit hunt from the first weekend of muzzleloader to the weekend before deer muzzleloader on *DeGray Lake WMA*.

Addendum: C1.01

Justification

The Corps of Engineers has a deer modern gun youth permit hunt that allows three youth to participate in the permit hunt and it is on areas that are not allowed to be hunted by the general public. The Corps of Engineers has selected these dates for this hunt so that it is not during muzzleloader season.

37. Add a modern gun permit hunt on *Galla Creek WMA*.

Codes: C1.01, C1.13

Justification

Several adjacent clubs continue to obtain numerous doe tags in an attempt to control deer numbers around Galla Creek WMA. In an attempt to continue to liberalize the deer harvest on this WMA and to allow public land hunters in this area more opportunity, Region 8 staff recommends the addition of a modern gun permit hunt (30 permits) with a bag limit of two deer (one buck and one doe).

38. Move the modern gun mobility impaired permit hunt and the modern gun permit hunt dates on *Hobbs State Park-Conservation Area* later in the season.

Addendum: C1.01

Justification

Moving these date changes to later in the season will reduce conflicts between user groups on the area and give more attention to selected hunters.

39. Add two youth permit hunts to *Holland Bottoms WMA*.

Addendum: C1.01

Justification

Youth modern gun permit (20 permits per hunt) hunts, with restricted weapons, are being recommended to provide additional youth hunting opportunities within the central Arkansas region. The Holland Bottoms has approximately 5,540 acres of quality habitat that could be utilized by youth hunters with an average annual harvest rate of approximately 30 deer. The low number of permits (1/277 acres of quality habitat) will allow for a quality/safe experience. These hunt dates will coincide with the statewide youth deer hunts.

40. Remove the permit requirement to harvest a doe with a firearm during the entire muzzleloader season and Nov. 9-10 and Dec. 26-28 on *Blue Mountain WMA*.

Addenda: C1.01, C1.13

Justification

Align the total deer bag limit with deer zone 11. Deer harvest numbers suggest the deer herd on this area can support the increase in the bag limit.

41. Add a modern gun youth permit (20 permits) hunt on *Little Bayou WMA*.

Addenda: C1.01, C1.13

Justification

To provide additional quality hunting opportunities for youths. The dates will coincide with the first statewide youth deer hunt.

42. Remove the permit requirement from the youth hunt and add the second statewide youth hunt date on *Prairie Bayou WMA*.

Addenda: C1.01, C1.13

Justification

Removing permit requirement for the youth hunt and adding the second youth hunt will increase regional and statewide opportunity for youth hunters. Permit sales have been low the last several years, averaging 75% permits remaining.

43. Add a modern gun mobility impaired permit hunt (6 permits) on *Wedington and White Rock WMAs*.

Addenda: C1.01, C1.13

Justification

To provide hunting opportunity to special needs mobility impaired deer hunters.

44. Open archery bear season on *Cedar Creek and Iron Mountain Natural Area WMAs*.

Addendum: C1.02

Justification

There is no biological reason not to allow archery bear hunting on these areas. The area is currently open to archery deer hunting and this change would allow for more sportsman opportunity.

45. Open modern gun bear season for two days for deer permit holders only on *Galla Creek WMA*.

Addendum: C1.02

Justification

Bears are rare occurrences on Galla Creek WMA and are typically young bears passing through the area. Allowing deer permit holders to also harvest a bear if they encounter one will prevent bears from becoming established on this small WMA which is located very near to urban areas where they would assuredly cause human conflicts. This recommendation is consistent with the permit hunts on all other Region 8 WMAs.

46. Increase the turkey bag limit from one to two on *Buck Island WMA*.

Addendum: C1.04

Justification

This regulation change would align the WMA bag limit with the surrounding zone.

47. Eliminate the Bird Dog Training/Quail Hunting Permit that is currently required to hunt on *Big Timber WMA Upland Demonstration Area*.

Addendum: C1.05

Justification

The AGFC leases this portion of Big Timber WMA from The Ross Foundation. The intent of the Bird Dog Training/Quail Hunting Permits was originally to gather information from quail hunters using the area and to survey them to collect data used by the Ross Foundation. The Ross Foundation did not gather enough accurate data from the hunters and the area is not very heavily utilized by quail hunters, so the Ross Foundation has requested that no permits be required on the Upland Wildlife Demonstration Area.

48. Allow raccoon hunting on *J. Perry Mikles Blue Mountain WMA*.

Addendum: C1.09

Justification

Allowing raccoon hunting will reduce predation on the quail stocked for field trial use, reduce predation on ground nesting bird nests and provide additional furbearer hunting opportunity.

49. Allow trapping of furbearers on *Camp Robinson WMA*.

Addendum: C1.09

Justification

Military personnel at Camp Robinson have requested to allow trapping of furbearers on the WMA. A few years ago, the military personnel at the time recommended that the WMA be closed to trapping due to the potential for an individual to set out traps on the WMA one day and then return the next day to find that the same area had been closed to public access and would thereby be unable to retrieve his traps. With the current personnel on the military base and the long-term scheduling of training activities, it is unlikely that the once perceived problem would actually become reality. Therefore, the military personnel recommend allowing trapping on Camp Robinson WMA in order to provide recreational opportunity and help reduce furbearer numbers.

50. A change to allow archery hunting for deer, and squirrel hunting on *Harris Brake WMA* seven days a week while staying consistent with statewide season and WMA boating restrictions.

Addendum: C1.12

Justification

Comments from the non-duck hunting public as well as a general consensus between area biologists, and county wildlife officers suggest that a possibly large portion of hunters are unable to utilize this WMA for many of its intended uses due to restrictions that were placed on the days, times, and types of hunting that can occur during the waterfowl season. After consultation with previous area managers, and county wildlife officers no reasons could be identified for continuing with these restrictions.

51. The *Conway George Unit on Sheffield Nelson Dagmar WMA* is closed to all trespassing, except for waterfowl hunting permit from the last day of the modern gun permit hunt to the last day of waterfowl season (including the special youth waterfowl hunt). Anyone entering the Conway George Unit during waterfowl season must be in possession of a Sheffield Nelson Dagmar WMA Conway George Unit Waterfowl Hunting Daily Use Permit, or be accompanied (in immediate proximity) by a permit holder in accordance with permit requirements. Waterfowl hunting permits will be allocated through an online drawing. All permits must be completed and returned to the collection box at the end of the hunt.

Addendum: C1.12**Justification**

The Conway George Unit is a newly acquired property that will be managed as a permitted waterfowl hunt unit on Wednesdays and Saturdays. All day youth permit hunts will be allowed each Saturday of waterfowl season in order to support, encourage and promote youth waterfowl hunting in East Central Arkansas. These small units will be closed to all trespass except for permit holders in order to allow waterfowl time to forage and loaf on these high quality sites.

52. Added a muzzleloader and modern gun deer permit hunt (20 permits per hunt) on *Benson Creek Natural Area WMA*.

Addenda: C1.01, C1.13**Justification**

Increase public hunting opportunity by allowing muzzleloader and modern gun permit hunts on this WMA. The WMA will be permitted due to anticipated hunter participation. This WMA is in deer zone 9 and borders both Sheffield Nelson Dagmar WMA and Cache River NWR. There are no anticipated safety concerns with allowing these permit hunts. Arkansas Natural Heritage Commission supports adding these permit hunts. The staff would like to provide additional public opportunity but at the same time, is committed to providing a quality experience for the permit hunters.

53. Add the word possess to code 20.05 and also add an exception to exclude hunters traveling to inholding property on a WMA.

Code: 20.05

Justification

There is no reason for hunters to possess corn, feed or any type of bait while hunting on WMAs. In the past corn has been found by enforcement on ATV's and in trucks. The hunter has used the excuse they hunt over bait on their lease.

54. Open elk season on *Bearcat Hollow WMA*.

Addendum: C1.15

Justification

The elk population on this area has reached a level to sustain a limited hunt.

55. Open squirrel hunting with dogs after the first nine days of modern gun deer season on *Big Timber, Casey Jones, Ozark National Forest, Piney Creeks and White Rock WMAs*.

Code: 22.01

Justification

To provide maximum opportunity for both modern gun deer hunters and modern gun squirrel hunters utilizing dogs.

56. Add an alligator hunt by permit only on *Sulphur River WMA*.

Addendum: C1.03

Justification

Permits have been issued on Sulphur River in the past; however numbers of alligators detected during spotlight surveys declined due to flooding, and the WMA was removed from the code. The alligator population in the area most likely did not drop, but the flood waters most likely accounted for dispersal of the alligators. Including Sulphur River WMA in the code, and allowing the harvest of one alligator on the area will not negatively impact the resource. Staff recommends adding Sulphur River WMA to the code, and the alligator population will continue to be closely monitored.

Misc.

57. Modify the legal archery tackle to exclude arrowheads containing firearm ammunition.

Code: 06.04

Justification

A new product has been developed to be used for archery hunters. This product incorporates firearm ammunition inside an arrowhead to be delivered by archery

tackle. When the arrow makes contact with the target, the arrow becomes a firing pin and deploys the ammunition round.

This product can become very deadly being delivered from archery tackle. Deployed arrows may glance off tree limbs and other obstacles which result in the arrow rapidly changing its course of flight. A deflected arrow with these types of heads can be very dangerous as the ammunition round is fired in a random direction. In addition, a firearm ammunition arrowhead contradicts the spirit of archery tackle definitions.

58. Modify the minimum archery poundage from 40 to 35 pounds.

Code: 06.04

Justification

The current regulation requires that hunters utilizing archery tackle comply with a draw weight at least 40 pounds. This regulation was developed many years ago and has not been modified with the advances of archery tackle.

It has been recommended by the Arkansas Bowhunters Association that the Arkansas Game and Fish Commission lower the 40 pound requirement to 35 pounds to address the enhancements in archery tackle and provide opportunity to hunters who may not be able to effectively draw 40 pounds. This recommended draw weight would also take into consideration the various types of broad heads (fixed vs. expandable) and their killing ability.

Items in blue are clarifications and are not reflected in the summary.

Each WMA ([Code 01.00-C WMA](#)) is a separate zone for which the Commission may establish and apply hunting regulations. All private lands (including any combinations of lands separately owned, and regardless of whether such lands touch a road, creek, stream, river, lake or other waterbody) that are completely surrounded by WMA lands (except NWRs) shall be considered as inholdings. Such inholdings shall be subject to the same regulations pertaining to hunting season dates, hunting hours, bag limits and hunting permits as the surrounding WMA.

EXCEPTIONS:

- (1) Private lands that are completely surrounded by NWR lands shall be subject to the same state regulations pertaining to hunting season dates, hunting hours, bag limits and hunting permits as the surrounding or nearest adjacent state management zone, plus any federal regulations pertaining to NWR inholdings.
- (2) **Private lands that are completely surrounded by a WMA that are located within the five county (Boone, Carroll, Madison, Newton and Searcy Counties) Elk Management Assistance Program private land elk zone shall be subject to the elk hunting season dates, bag limits and hunting permits as the surrounding or nearest adjacent state management zone that allows elk hunting.**

F1.01

COMMERCIAL WILDLIFE HUNTING RESORT REQUIREMENTS

04-12

- (A) Commercial Wildlife Hunting Resort Permits may be issued to applicants complying with the following requirements:
 - (1) The applicant must be at least 18 years old and shall not have been convicted of, or entered a plea of guilty or *nolo contendere* for, violating any federal, state or municipal law governing captive wildlife, illegal appropriation or commercialization of wildlife, or cruelty to animals within five years of application date.
 - (2) The applicant shall provide to the Commission, in writing, proof from the county judge or sheriff and any municipal planning commission or board with jurisdiction, stating that the applicant's hunting resort shall be in compliance with all local ordinances.
 - (3) The applicant shall submit a written application (available from the Commission) for each facility to be permitted.
- (B) The requested permit shall be denied if:
 - (1) The applicant fails to meet any of the issuance criteria set forth in this addendum chapter;
 - (2) The applicant fails to disclose material information required, makes false statements as to any material fact in connection with the application, or supplies false information or makes a false statement on the application;
 - (3) The Commission finds, through further inquiry or investigation, the issuance of the permit may be potentially harmful to the wildlife resources of the State.
- (C) Commercial wildlife hunting resorts must comply with the following:
 - (1) Commercial Wildlife Hunting Resort Permits must be obtained at least 60 days before hunting begins. Operators must notify the Commission upon any change of ownership or enclosure size.
 - (2) Native game animals, except black bear, may be hunted within commercial wildlife hunting resorts in accordance with statewide hunting regulations and license requirements. Such high-fence enclosures shall be at least 500

contiguous acres of free range (no cross-fencing) with a fence at least 8 feet in height around the perimeter.

- (3) Deer and elk may be hunted within commercial wildlife hunting resorts with any legal method of take for deer or elk hunting from October-February. Limits do not apply. An elk permit is not required.
 - (4) High-fence enclosures shall have at least 60 percent forested cover classified as timberland by the county tax assessor.
 - (5) Hunting, chasing, herding or corralling deer or elk with dogs within a commercial wildlife hunting enclosure is prohibited.
 - (6) Hunting non-native wildlife within a high-fence enclosure is prohibited.
 - (7) The perimeter fencing of a high-fence enclosure must be posted at least every 300 feet with yellow signs marked with "Commercial Wildlife Hunting Resort" in black letters at least 4 inches tall.
 - (8) All cervids held captive under this permit that die, including those harvested by hunters, shall be tested for chronic wasting disease by the Arkansas Livestock and Poultry Commission at the expense of the permit holder. The permit holder shall submit the results of such testing to the Commission within seven days of receipt.
 - (9) Permit holders whose facilities, including enclosures, pens and cages, are not in compliance with this addendum chapter shall be notified in writing and shall have 10 days to correct the violation.
 - (10) If the violation has not been corrected in 10 days, the Commission may revoke any existing permit and may refuse to issue any future permit to the violator. Such revocation or refusal to issue a future permit shall be in addition to any criminal charges that may be filed.
- (D) Reporting and Record-Keeping Requirements:
- (1) Owners or operators of commercial wildlife hunting resorts must keep legible and complete records showing the name and current address of each hunter, the date, number of wildlife and sex of each animal taken.
 - (2) Records shall include evidence of legal possession of all wildlife kept under this permit, including licenses, bills of sale, bills of lading, receipts, invoices or other satisfactory evidence of ownership. Records shall include the date of acquisition, place of origin, and the name, address and telephone number of the person from whom the wildlife was acquired.
 - (3) Records must be retained throughout the time the wildlife is possessed by the permittee or for five years, whichever is longer.
 - (4) Permit holders shall submit a completed Commercial Wildlife Hunting Resort Harvest Report (form available from the Commission) by May 1.
 - (5) **Stock shall only be acquired from either a Commission-permitted Wildlife Breeder/Dealer or have been brought into the state in accordance with a Commission Wildlife Importation Permit. Permits will not be issued to and existing permits may be revoked for facilities that have acquired stock by any other method.**
- (E) Disease Testing and Control:
- (1) The director of the Commission, in consultation with the director of the Arkansas Livestock and Poultry Commission, or their designees, shall determine mechanisms and procedures for control of diseases and parasites in captive wildlife within Arkansas. Such mechanisms and procedures shall include, but not be limited to, examination, testing, quarantine and slaughter or destruction of individual animals and/or herds that are, or in the opinion of the Commission may be, infected with a disease or parasite that may have

- significant detrimental effect on native wildlife, other captive wildlife, livestock or the public health of the citizens of Arkansas.
- (2) Examinations, testing, quarantine and slaughter of captive wildlife shall be conducted at the expense of the owner. As a condition of any permit issued under this addendum chapter, the Commission may require the captive wildlife be quarantined for a period specified by the Commission.
- (F) Facility and Enclosure Requirements:
- (1) All wildlife possessed in captivity shall be maintained in enclosures that are sufficiently strong to prevent escape of the wildlife and will protect the wildlife from injury.
 - (2) Enclosures shall be kept in good repair at all times and gates shall be securely fastened with latches or locks.
 - (3) Permit holders whose facilities, including enclosures, are not in compliance with this addendum chapter shall correct the violation within 10 days of notification, or sooner if so ordered by the Commission.
 - (4) If the violation has not been corrected within required time, the Commission may revoke or suspend any existing permit and may refuse to issue any future permit. Such revocation, suspension or refusal to issue a future permit shall be in addition to any criminal charges that may be filed.
 - (5) All wildlife shall be maintained in humane and healthy conditions.
- (F) Inspection:
- (1) Permit holders shall allow agents of the Commission to enter and inspect the premises, including books, records or permits required to be kept and any wildlife and/or facilities kept under authority of permit.
 - (2) Each permittee shall pen the captive wildlife in suitable pens and restrain them for inspection, at a reasonable time, when requested to do so by an agent of the Commission.
- (G) Permit Renewal, Transfer, Suspension And Revocation:
- (1) Persons in violation of the terms of this permit, this addendum chapter, Commission Codes, or convicted of violating associated regulations of the U.S. Fish and Wildlife Service, shall be notified in writing and shall have 20 days to respond with just cause as to why their permit should not be suspended or revoked.
 - (2) If after 20 days just cause has not been given, the Commission may suspend or revoke any existing permit held by the violator and may refuse to issue future permits. Permit suspension, revocation or refusal shall be in addition to any criminal charges that may be filed.
 - (3) Upon revocation, permit holder must remove by legal means all captive wildlife within the time designated in the revocation, not to exceed 60 days, and failure to do so shall result in the Commission taking action, per Commission policy, at the permit holder's expense.

F1.02 GAME BIRD SHOOTING RESORT REQUIREMENTS

- 04-12 (A) Game Bird Shooting Resort Permits may be issued to applicants complying with the following requirements:
- (1) The applicant must be at least 18 years old and shall not have been convicted of, or entered a plea of guilty or *nolo contendere* for, violating any federal, state or municipal law governing captive wildlife, illegal appropriation or commercialization of wildlife, or cruelty to animals within five years of application date.

- (2) The applicant shall provide to the Commission, in writing, proof from the county judge or sheriff and any municipal planning commission or board with jurisdiction, stating the applicant's resort shall be in compliance with all local ordinances.
 - (3) The applicant shall submit a written application (available from the Commission) for each facility to be permitted.
 - (B) The requested permit shall be denied if:
 - (1) The applicant fails to meet any of the issuance criteria set forth in this addendum chapter;
 - (2) The applicant fails to disclose material information required, makes false statements as to any material fact in connection with the application, or supplies false information or makes a false statement on the application;
 - (3) The Commission finds, through further inquiry or investigation, the issuance of the permit may be potentially harmful to the wildlife resources of the State.
 - (C) Permit Requirements:
 - (1) Holders of a Game Bird Shooting Resort Permit shall comply with the following requirements:
 - (a) The resort operator shall release only the number of game birds intended to be harvested each day, less the number of birds released but not harvested the previous hunt;
 - (b) The resort owner shall release only the number of captive-reared mallards intended to be harvested each day and, after hunting is completed, shall capture all non-harvested mallards released for the hunt and return them to their enclosure.
 - (c) All acreage in the shooting resort will be contiguous and not exceed 1,500 acres;
 - (d) The perimeter of each game bird shooting resort must be posted at least every 300 feet with yellow signs marked with "Game Bird Shooting Resort" in black letters at least 4 inches tall.
 - (e) Operators of Game Bird Shooting Resorts may release captive-reared mallards for the sole purpose of flight training during daylight hours July 1-Sept. 1. After flight training has been completed, captive-reared mallards shall be returned to their enclosure before sunset.
 - (f) Permit holders whose facilities, including enclosures, pens and cages, are not in compliance with this addendum chapter shall be notified in writing and shall have 10 days to correct the violation.
 - (g) If the violation has not been corrected in 10 days, the Commission may revoke any existing permit and may refuse to issue any future permit to the violator. Such revocation or refusal to issue a future permit shall be in addition to any criminal charges that may be filed.
 - (D) Reporting and Record-Keeping Requirements:
 - (1) Owners or operators of game bird shooting resorts must keep legible and complete records (on forms provided by the Commission) showing the name and current address of each hunter, the date, number and type of birds released each day and the number taken by each hunter.
 - (2) Records shall include evidence of legal possession of all wildlife kept under this permit, including licenses, bills of sale, bills of lading, receipts, invoices or other satisfactory evidence of ownership. Records shall include the date of acquisition, place of origin, and the name, address and telephone number of the person from whom the wildlife was acquired.

- (3) Records must be retained throughout the time the wildlife is possessed by the permittee or for five years, whichever is longer.
 - (4) Permit holders shall submit a completed Game Bird Shooting Resort Daily Release and Harvest Report (form available from the Commission) by May 1.
 - (5) Stock shall only be acquired from either a Commission-permitted Wildlife Breeder/Dealer or have been brought into the state in accordance with a Commission Wildlife Importation Permit. Permits will not be issued to and existing permits may be revoked for facilities that have acquired stock by any other method.**
- (E) Disease Testing and Control:
- (1) The director of the Commission, in consultation with the director of the Arkansas Livestock and Poultry Commission, or their designees, shall determine mechanisms and procedures for control of diseases and parasites in captive wildlife within Arkansas. Such mechanisms and procedures shall include, but not be limited to, examination, testing, quarantine and slaughter or destruction of individual animals and/or herds or flocks that are, or in the opinion of the Commission may be, infected with a disease or parasite that may have significant detrimental effect on native wildlife, other captive wildlife, livestock or the public health of the citizens of Arkansas.
 - (2) Examinations, testing, quarantine and slaughter of captive wildlife shall be conducted at the expense of the owner. As a condition of any permit issued under this addendum chapter, the Commission may require the captive wildlife be quarantined for a period specified by the Commission.
- (F) Facility and Caging Requirements:
- (1) Birds possessed in captivity shall be maintained in buildings or covered pens that prevent escape, protect the birds from injury and prevent entry of wild birds.
 - (2) Enclosures shall be kept in good repair at all times and gates shall be securely fastened with latches or locks.
 - (3) Permit holders whose facilities, including enclosures, are not in compliance with this addendum chapter shall correct the violation within 10 days of notification, or sooner if so ordered by the Commission.
 - (4) If the violation has not been corrected within the required time, the Commission may revoke or suspend any existing permit and may refuse to issue any future permit. Such revocation, suspension or refusal to issue a future permit shall be in addition to any criminal charges that may be filed.
 - (5) All wildlife shall be maintained in humane and healthy conditions.
- (G) Harvest Identification Requirements:
Any person in possession of game birds harvested from a game bird shooting resort shall have on his person written information stating the name and address of the hunter who harvested the game birds, the number, species and harvest date of the game birds, and the name and address of the resort.
- (H) Inspection:
- 1) Permit holders shall allow agents of the Commission to enter and inspect the premises, including books, records or permits required to be kept and any wildlife and/or facilities kept under authority of permit.
 - (2) Each permittee shall pen the captive wildlife in suitable pens and restrain them for inspection, at a reasonable time, when requested to do so by an agent of the Commission.
- (I) Permit Renewal, Transfer, Suspension and Revocation:

- (1) Persons in violation of the terms of this permit, this addendum chapter, Commission Codes, or convicted of violating associated regulations of the U.S. Fish and Wildlife Service, shall be notified in writing and shall have 20 days to respond with just cause as to why their permit should not be suspended or revoked.
- (2) If after 20 days just cause has not been given, the Commission may suspend or revoke any existing permit held by the violator and may refuse to issue future permits. Permit suspension, revocation or refusal shall be in addition to any criminal charges that may be filed.
- (3) Upon revocation, permit holder must remove by legal means all captive wildlife within the time designated in the revocation, not to exceed 60 days, and failure to do so shall result in the Commission taking action, per Commission policy, at the permit holder's expense.

F1.03 WILDLIFE BREEDER/DEALER PERMIT REQUIREMENTS

- 04-12 (A) Wildlife Breeder/Dealer Permits may be issued to applicants complying with the following requirements:
- (1) The applicant must be at least 18 years old and shall not have been convicted of, or entered a plea of guilty or nolo contendere for, violating any federal, state or municipal law governing captive wildlife, illegal appropriation or commercialization of wildlife, or cruelty to animals within five years of the application date.
 - (2) The applicant shall provide to the Commission, in writing, proof from the county judge or sheriff and any municipal planning commission or board with jurisdiction, stating that the applicant's facility shall be in compliance with all local ordinances.
 - (3) The applicant shall submit a written application (available from the Commission) for each facility to be permitted.
- (B) The requested permit shall be denied if:
- (1) The applicant fails to meet any of the issuance criteria set forth in this addendum chapter;
 - (2) The applicant fails to disclose material information required, or makes false statements as to any material fact in connection with the application, or supplies false information or makes a false statement on the application;
 - (3) The Commission finds, through further inquiry or investigation, the issuance of the permit may be potentially harmful to the wildlife resources of the State.
 - (4) The applicant is seeking to permit a new facility for:
 - (a) Rearing, breeding, propagating, producing, distributing or possessing large carnivores or mountain lions.
 - (b) Rearing, breeding, propagating, producing or distributing any member of the cervidae family.
 - (c) The importation, propagation, sale, transfer, barter or distribution of box turtles (genus *Terrapene*).
 - (5) The applicant is seeking a Wildlife Breeder/Dealer Permit for waterfowl on properties where poultry is raised for sale, show or exhibition.
- (C) Permit Requirements:
- (1) The applicant shall supply satisfactory evidence stock has been/will be secured from a legal source.
 - (2) Stock may be slaughtered in accordance with established husbandry practices for slaughter of domestic livestock.

- (3) Fencing of enclosures in which deer, elk or other big game animals are to be held shall consist of a permanent deer-proof fence at least 8 feet tall and constructed in a manner that prohibits escape of captive wildlife and prohibits entry of native wildlife.
 - (4) Waterfowl hatched in wildlife breeder/dealer facilities shall be banded with a seamless metal band.
 - (5) Wildlife Breeder/Dealer Permit holders for cervids shall only sell live cervids to Arkansas residents who possess a current Wildlife Breeder/Dealer Permit for cervids, Arkansas residents who possess a current Commercial Wildlife Hunting Resort Permit for cervids or to buyers outside Arkansas.
 - (6) Live bobwhite quail sold to Arkansas residents who do not possess a Wildlife Breeder/Dealer Permit or Game Bird Shooting Resort Permit must be banded by the permit holder.
- (D) Reporting and Record-keeping Requirements:
- (1) Legible records of all wildlife acquisitions and dispositions, including births, deaths, sales, slaughter and transport, shall be kept.
 - (2) Records shall include evidence of legal possession of all wildlife kept under the permit, including licenses, bills of sale, bills of lading, receipts, invoices or other satisfactory evidence of ownership. Records shall include date of acquisition, place of origin, and the name, address and telephone number of the person from whom the wildlife was acquired.
 - (3) Records of sale shall include the name, address and telephone number of the person to whom the wildlife was sold, and the number of each species sold to each person.
 - (4) Records must be retained throughout the time the wildlife is possessed by the permittee or for five years, whichever is longer.
 - (5) Holders of Wildlife Breeder/Dealer Permits shall submit legible, complete monthly reports (forms available from the Commission) of their inventory and any births, deaths, sales or purchases of wildlife by the fifth of the following month.
 - (6) Wildlife Breeder/Dealer Permit holders who possess cervids in facilities larger than 25 acres where the animals are allowed free range may report an estimated inventory number based on a Commission-approved survey technique.
 - (7) **Stock shall only be acquired from either a Commission-permitted Wildlife Breeder/Dealer or have been brought into the state in accordance with a Commission Wildlife Importation Permit. Permits will not be issued to and existing permits may be revoked for facilities that have acquired stock by any other method.**
- (E) Disease Testing and Control:
- (1) The director of the Commission, in consultation with the director of the Arkansas Livestock and Poultry Commission, or their designees, shall determine mechanisms and procedures for control of diseases and parasites in captive wildlife within Arkansas. Such mechanisms and procedures shall include, but not be limited to, examination, testing, quarantine and slaughter or destruction of individual animals and/or herds or flocks that are, or in the opinion of the Commission may be, infected with a disease or parasite that may have significant detrimental effect on native wildlife, other captive wildlife, livestock or the public health of the citizens of Arkansas.
 - (2) Examinations, testing, quarantine and slaughter of captive wildlife shall be conducted at the expense of the owner. As a condition of any permit issued

under this addendum chapter, the Commission may require the captive wildlife be quarantined for a period specified by the Commission.

- (3) All Cervids that die in captivity must be tested for chronic wasting disease. Copies of test results shall be forwarded to the Commission within seven days of receipt.
- (4) Captive Cervid facilities must be in compliance with all Arkansas Livestock and Poultry Commission requirements.
- (5) Permitted Wildlife Breeder/Dealer facilities in which birds are kept are required to adhere to Arkansas Livestock and Poultry Commission requirements regarding pullorum-typhoid disease tests and are encouraged to participate in the National Poultry Improvement Plan.
- (6) Each Wildlife Breeder/Dealer facility where waterfowl are kept is required to test 60 birds for duck virus enteritis using the PCR technique every May. Facilities containing less than 60 birds shall test all birds in stock. Samples shall be taken by a licensed veterinarian and submitted to the Arkansas Livestock and Poultry Commission at the owner's expense. Copies of test results shall be forwarded to the Commission within seven days of receipt.
- (7) Flocks testing positive for duck virus enteritis shall be quarantined or destroyed by the owner or operator within 14 days and the carcasses disposed of in accordance with Arkansas Livestock and Poultry Commission regulations.

(F) Facility and Caging Requirements:

All wildlife possessed under a Wildlife Breeder/Dealer Permit in Arkansas shall be maintained in a permanent enclosure, pen, or cage strong enough to prevent escape of the wildlife and protect them from injury. All wildlife shall be maintained in humane and healthy conditions. Birds must be kept in buildings or covered pens that prevent escape and that do not allow entry of wild birds. Enclosures shall be kept in good repair at all times and gates shall be securely fastened with latches or locks. Enclosures, pens or cages considered unsafe by Commission personnel must be repaired or reconstructed within 10 days or as specified by the Commission.

- (1) Facilities containing large carnivores and mountain lions shall meet the following requirements:
 - (a) A written plan of action shall be prepared and a copy submitted with permit application for use in the following events: Severe damage to enclosures from fire, wind, floods or other natural forces; animals attacking and/or injuring humans, and animals escaping enclosures. Plans should identify the location of temporary holding facilities and necessary mechanisms to safely transport large carnivores to these facilities. Recapture plans shall outline procedures for handling and recapturing escaped large carnivores. Plans should include a list of safety equipment which shall be available for use. The Commission shall immediately be notified upon the escape of any large carnivores or mountain lions. In the event of sickness, the name, address, phone number, and signature of the veterinarian who has agreed to care for the animal shall be provided.
 - (b) A perimeter fence sufficient to deter entry by the public, at least 8 feet tall shall completely surround cages where animals are housed or exercised outdoors. Perimeter fences that allow objects to be passed through them, such as chain link or welded wire, shall be at least 3 feet from cages or exercise areas.
 - (c) Warning signs must be posted at the entrance to the property.

- (d) All cages or enclosures shall be equipped with an entrance or device that allows a keeper to enter or exit a cage without providing an avenue of escape to an animal (such as a double-gated entry door, interconnected cages that can be isolated from each other, a lock-down area, or other comparable device). Safety entrances shall be constructed of materials of equivalent strength as those prescribed for cage construction. Doors or gates in perimeter fences shall be locked when unattended.
- (e) Cages shall be equipped with a lockout area that allows the keeper access while the animal is contained in a separate area.
- (f) Cages shall be well braced and securely anchored at ground level to prevent escape by digging or erosion. The fasteners and fittings used in construction shall be of equivalent strength to the material required for cage construction.
- (g) In facilities containing tigers, African lions and bears cage construction materials shall consist of at least 9-gauge chain link or equivalent materials. In facilities containing mountain lions, cage construction materials shall consist of at least 11-gauge chain link or equivalent materials. Juvenile animals may be kept in incubation or rearing facilities not meeting these standards until they weigh more than 25 pounds.
- (h) Cages containing a single African lion, tiger or bear shall have a cage floor at least 300 square feet and shall be at least 8 feet tall. For each additional animal the cage size shall be increased 100 square feet.
- (i) Cages containing a single mountain lion shall have a cage floor at least 200 square feet and shall be at least 8 feet tall. For each additional animal the cage size shall be increased 100 square feet.
- (j) Large carnivores and mountain lions may temporarily be housed in cages or enclosures smaller than specified in this chapter while being transported, while in veterinary care or while being quarantined, provided temporary caging is large enough for the animal to stand up, lie down and turn around without touching the sides of the enclosure or another animal.
- (k) Open-top outdoor exercise areas are allowed providing they have vertical walls at least 12 feet tall, topped by either: an inward-angled overhang at an angle between 35 and 55 degrees, which is at least 2 feet long and of equal strength as the cage walls; or, two strands of electric fencing, one of which is 1 foot below the top of the vertical wall, and the other at the top of the wall or the upper 3 feet of the interior of the fence consists of sheer, solid metal. Animals may not be left in exercise areas overnight.
- (l) Permit holders whose facility, including enclosures, pens and cages, is not in compliance with this Commission Addendum Chapter shall be notified in writing and shall have 10 days to correct the violation.
- (m) If the violation has not been corrected in 10 days of notification, the Commission may revoke any existing permit and may refuse to issue any future permit. Such revocation or refusal to issue a future permit shall be in addition to any criminal charges that may be filed.

(G) Inspection:

- (1) Any person issued a Wildlife Breeder/Dealer Permit shall allow entry, at any reasonable hour, to Commission employees or their agents to inspect any wildlife and/or facilities kept under authority of the permit.
 - (2) Each permittee shall pen the captive wildlife in suitable pens and restrain them for inspection, at a reasonable time, when requested to do so by the employee or agent.
- (H) Renewal, Transfer, Suspension and Revocation:
- (1) Permits may be revoked for failure to comply with the terms of the permit or with the terms of this Commission Addendum Chapter.
 - (2) Persons in violation of the terms of this permit, violation of the Commission Addendum, or upon conviction of associated regulations of the U.S. Fish and Wildlife Service, shall be notified in writing of such violations and shall have 20 days to respond.
 - (3) If, at the end of 20 days, just cause has not been given, the Commission may suspend or revoke any existing permit and refuse to issue any future permit. Permit suspension, revocation or refusal shall be in addition to any criminal charges that may be filed.
 - (4) Upon revocation, permit holder must legally remove all captive wildlife within the time designated in the revocation, not to exceed 60 days, and failure to do so shall result in the Commission taking action, per Commission policy, at the permit holder's expense.
 - (5) No existing permit can be transferred to another person, firm or corporation rearing, breeding, propagating, producing or distributing any member of the Cervidae family.

F1.07 FALCONRY PERMIT REQUIREMENTS

- 04-13 A) Permits or legible copies of them must be in a falconer's immediate possession when trapping, transporting, working with or flying falconry raptors, both in and outside of Arkansas.

EXCEPTION:

- (1) When the falconer is at the location of his/her falconry facilities
- B) Permits issued by the Commission will be at a level commensurate with the falconer's ability and experience as follows:

Apprentice Class Eligibility, and Application Conditions and Requirements:

- A) An Apprentice falconer applicant must be at least 14 years of age. If the apprentice is under 18 years of age, a parent or legal guardian must sign his/her application and be legally responsible for his/her activities.
- B) An Apprentice Class falconer applicant must have a letter from a Master or General Falconer who is at least 18 years old and has at least two years experience at the General Falconer level and a state falconry permit stating that he or she will sponsor the applicant and serve as his/her mentor.
- C) An Apprentice applicant will not be issued a permit until the applicant has demonstrated satisfactory compliance with the following requirements:
 - 1) Must pass a written falconry examination administered by the Commission with a score of at least 80 percent.
 - 2) Must possess a Arkansas hunting license.
 - 3) Must have their falconry facilities and equipment pass inspection by an employee of AGFC.
- D) Apprentice falconers may possess no more than 1 raptor for use in falconry.

- E) Apprentice falconers may possess a wild-caught raptor of the following species: Red-tailed hawk, American kestrel, Red-shouldered hawk, Great horned owl, or Harris's hawk.
- F) Apprentice falconers are required to capture the hawk themselves; the raptor may not be transferred to them by another falconer.
- G) Apprentice falconers may not possess a raptor taken from the wild as a nestling and may not possess a bird that is imprinted on humans.

General Class Eligibility, and Application Conditions and Requirements:

- A) General Class Falconers must be at least 16 years of age. General Class falconers that are 16 or 17 years of age must have a parent or legal guardian sign their falconry application and be legally responsible for their activities.
- B) Apprentice Class falconers can move to General Class by submitting a document from a General Falconer or Master Falconer (preferably his/her sponsor) to the AGFC Falconry Program Coordinator stating that the apprentice has practiced falconry with wild raptor(s) at the Apprentice Falconry level or equivalent for at least two years, including maintaining, training capture, release and flying and hunting the raptor(s) for at least four months each year. The letter must state the number of months and days that the Apprentice falconer possessed a falconry raptor.
- C) Apprentice class falconers may not substitute any falconry school program or education to shorten the period of two years at the Apprentice Level.
- D) General Class falconers may take and possess any species of Falconiform or Strigiform except a golden eagle, a bald eagle a white-tailed eagle or a Stellers sea-eagle. General falconers may possess captive bred individuals and hybrids of the species that General Class falconers are allowed to possess.
- E) General Class falconers may possess no more than 3 raptors.

Master Class Eligibility, and Application Conditions and Requirements: Master Class falconers must have practiced falconry with their own raptors(s) at the General Falconer level for at least 5 years.

- A) General Class falconers can move to Master Class by submitting a document in writing to AGFC's Falconry Coordinator requesting to be moved to Master Class status. The request must include the species and number of months and years that the General Class falconer possessed each raptor during his/her General Class period.
- B) Master Class Falconers may take and possess any species of Falconiform or Strigiform except a bald eagle. Master Class falconers may take and possess a golden, eagle, a white-tailed eagle or a Steller's sea eagle only if he/she possesses a Falconry Eagle Permit. Master Class falconers may use captive bred individuals and hybrids of the species Master falconers are allowed to possess.
- C) Master Class falconers may possess no more than five wild raptors (including golden eagles if the master Class falconer has a Falconry Eagle Permit).
- D) Master Class falconers may possess any number if captive bred raptors, however the falconer must train them in the pursuit of wild game and use them in hunting.

Falconry Eagle Permit Eligibility, and Application Conditions and Requirements.

- A) Master Class falconers may take and possess golden, eagles, white-tailed eagles or a Steller's sea eagles when issued an Arkansas Falconry Eagle Permit. Master Class falconers will be issued an Arkansas Eagle Falconry Permit when the

Master Class falconer has demonstrated satisfactory compliance with the following requirements.

- 1) A list of qualifications and experience in handling large raptors, including information about the species the applicant has handled and the type and duration of the activity in which the applicant gained the experience submitted in writing to the Commission's Falconry Coordinator.
 - 2) At least two letters of reference from people with experience handling and/or flying large raptors such as eagles, ferruginous hawks, goshawks, or great horned owls. Each must contain a concise history of the author's experience with large raptors, which can include, but is not limited to, handling of raptors held by zoos, rehabilitating large raptors, or scientific studies of involving large raptors. Each letter must also assess the applicant's ability to care for eagles and fly them in falconry and must be submitted to the Commission's Falconry Coordinator.
- B) A golden eagle, white-tailed sea eagle, or Steller's sea eagle possessed by a Master falconer with a Falconry Eagle permit will count as one of the raptors in that falconer's total wild bird possession limit as a master falconer.
- C) Master Class falconers with a Falconry Eagle Permit may take one or two golden eagles from the wild according to both federal regulations and the regulations of the state in which the eagle is taken.
- D) Master Class falconers with an Eagle Permit may take, transport or possess up to three eagle including golden eagles, white-tailed eagles and/or Steller's sea eagles. Each eagle a Master falconer possesses counts as a bird included under the Master falconer's wild bird possession limit. Master falconer's in possession of eagle(s) must follow all federal regulations and guidelines pertaining to eagles.

Eligibility Requirements to obtain falconry permit for individuals with falconry experience who are new residents in the United States.

- A) Applicant must pass a written falconry examination administered by the Commission with a score of at least 80 percent and must provide written documentation of falconry experience including species of raptors flown and game taken and must have their falconry facilities and equipment pass inspection by an employee of AGFC.
- B) The Arkansas Falconry Coordinator will assign a falconry Class level commensurate with the new resident falconer's experience.

Eligibility Requirements to obtain falconry permit for individuals with falconry experience who are Not U. S. Residents.

- A) A visitor to Arkansas from outside of the United States may qualify for a one year renewable Arkansas Non-U.S. Resident Temporary Falconry Permit at level appropriate for his/her experience according to the following requirements:
- 1) The visitor must take the written test, Arkansas Falconry Examination, and pass with a score of 80 or higher; the visitor must provide a written letter detailing the visitor's falconry experience which the Commission's Falconry Coordinator will use to assign the level of Apprentice, General or Master falconer to the temporary falconry permit; and the visitor must have his facilities pass inspection in order to possess birds for falconry.
- B) Holders of an Arkansas Non-U.S. Resident Temporary Falconry Permit may not take a bird from the wild for use in falconry.
- C) Holders of an Arkansas Non-U.S. Resident Temporary Falconry Permit may fly raptors held for falconry by a permitted Arkansas falconer.

- D) Holders of an Arkansas Non-U.S. Resident Temporary Falconry Permit may use any bird for falconry that he/she possess legally in their country of origin for that purpose, provided that import of that species in the U.S. is not prohibited and provided that he/she has met all permitting requirements in their country of residence.
- E) Holders of a temporary falconry permit must also have a current Arkansas Non-Resident Annual Small Game Hunting License.
- F) A holder of an Arkansas Non-U.S. resident Temporary Falconry Permit may transport registered raptors and must follow federal regulations and possess the necessary federal permits to import or export raptors to and from the United States. Unless the permit holder has the necessary federal permits to bring a raptor into the United States and leave it in the U.S., he/she must take raptors brought into the country for falconry out of the country when he/she leaves.

EXCEPTION:

- (1) If a raptor brought into the United States and Arkansas dies or is lost in the state, the visitor must report the loss to the Commission's Falconry Coordinator before leaving the state our country.
- G) When flown free, any bird brought to this country temporarily must have two functioning radio transmitters attached to the bird which will enable the falconer to locate it.
- H) A holder of an Arkansas Non-U.S. Resident Falconry Permit must comply with all Commission regulations and the falconry regulation in the states where he/she wishes to conduct falconry or through which he/she will travel with the falconry bird.

Additional Requirements regarding falconry permits including Reinstatement of lapsed falconry permit and residency requirements.

- A) If a previously licensed falconer's permit has lapsed for fewer than five years, his/her permit may be reinstated at the level they held previously if they provide the Commission's Falconry Coordinator with proof of their certification at that level and their facilities must pass inspection by an AGFC employee.

EXCEPTION:

- (1) If a previously licensed falconer's permit has lapsed for more than five years, they must pass the Arkansas Falconry written exam by correctly answering 80 percent of the questions and their facilities their facilities must pass inspection by an AGFC employee and they must provide written documentation of the class (Apprentice, General, Master) at which they were last permitted or licensed and for which they want their permit issued.
- B) If a permitted falconer resides for part of a year in another state, the falconer must contact that state to determine if they need to obtain a falconry permit from that state.
 - 1) If a falconer lives for more that 120 consecutive days in a state, territory of tribal land other than their Arkansas residence, their falconry facilities in that second state must meet Arkansas standards.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding facilities and care.

- A) Falconry Facility Requirements: Conditions for Facilities maintained on property owned or controlled by the falconer

- 1) The Commission must be notified in five days of a change of location of a permittee's falconry facilities and a falconer must have new facilities inspected in 30 days of a change of location.
 - 2) Birds must be kept in humane and healthful conditions, protected from the environment, predators and domestic animals.
 - 3) An Indoor Facility must have a suitable perch for each raptor, at least one opening for sunlight and must provide a healthy environment.
 - 4) Untethered raptors may be housed together if they are compatible with each other.
 - 5) Each raptor must have an area large enough to allow it to fly if it is untethered or, if tethered, to fully extend its wings or bate (attempt to fly when tethered) without damaging its feathers or contacting other raptors. It must be large enough to insure that tethered birds cannot strike the enclosure when flying from the perch.
 - 6) Each raptor must have a pan of clean water available at all times.
 - 7) An indoor facility must be large enough to allow easy access for the care and feeding of raptors kept there and must have flooring that allows drainage, does not retain moisture, and allows for sanitary maintenance activities.
 - 8) If raptors housed in an indoor facility are not tethered, all walls that are not solid must be protected on the inside. Suitable materials may include vertical bars spaced narrower than the width of the smallest raptor housed in the enclosure or heavy duty netting.
 - 9) Acceptable indoor facilities include shelf perch enclosures where raptors are tethered side by side. Other innovative housing systems are acceptable if they provide the enclosed raptors with protection and provide healthy feathers and fresh air.
 - 10) Falconry raptors may be kept inside the falconer's place of residence if a suitable perch or perches is provided. The residence's windows or other openings do not need to be modified. Raptors kept in a residence must be tethered when they are not being moved into or out of the location in which they are being kept.
 - 11) All falconers in possession of falconry raptors must have and maintain jesses or the materials and equipment to make jesses appropriate for the size raptor in their possession, leash and swivel, bath container, and scales or balances appropriate for weighing raptors in the falconer's possession (scales for kestrels must weigh in increments of one grams or less).
 - 12) Falconry raptors may be kept outside in the open if they are under watch, such as by the falconer or a family member at any location or, for example by a designated individual in a weathering yard at falconry meet.
 - 13) Permittees must keep all facilities and equipment at or above these standards at all times.
- B) Falconry Facility Requirements: Conditions for facilities maintained on property not owned or controlled by the falconer.
- 1) Regardless of location, a falconer's facilities must meet all the requirements listed for facilities on property own or controlled by the falconer.
 - 2) Falconer must submit a dated statement to the Commission's Falconry Coordinator showing that the falconer or the property owners (if the falconer's facilities are on property not owned or leased by the falconer) agrees that the falconry facilities, equipment and raptors may be inspected without advance notice by Commission personnel at any reasonable time of day.

- C) Transportation Facilities: Conditions for care and facilities for transporting raptors.
 - 1) When transporting a raptor, using a raptor for hunting or for temporary housing when away from home a falconer is required to have a suitable perch and protect the raptor from extreme temperatures, wind and excessive disturbance.
 - 2) A “giant hood” or similar container is acceptable for transporting or housing a raptor when away from home.
- D) Temporary Facilities: Conditions for temporary care and facilities for raptors.
 - 1) A falconer may house a raptor in temporary facilities for no more than 120 consecutive calendar days if the bird has a suitable perch and is protected from predators, domestic animals, extreme temperatures, wind and excessive disturbance.
- E) Conditions for Care of Falconry Raptors by Another Falconry Permittee.
 - 1) Another falconry permittee may care for a falconer’s raptor or raptors at the falconer’s facilities or at the other permittee’s facilities for up to 120 consecutive calendar days if:
 - a) The other person has a signed and dated statement from the falconer authorizing the other permittee the temporary possession of the falconry raptor(s). This written statement must include information about the time period for which the other permittee will keep the raptors(s) and state what he or she is allowed to do with the raptor(s).
 - b) Written authorization to the other falconry permittee from the falconer must be accompanied by a copy of FWS form 3-186A that shows the falconer as the authorized possessor of each of the falconry raptors.
 - c) The raptor(s) will remain on the falconer’s permit and will not count against the possession limit of the other falconry permittee caring for the raptors.
 - d) If the falconry permittee caring for the raptor(s) hold the appropriate level falconry permit, he/she may fly the falconry’s raptors in whatever way the falconer authorizes, including hunting.
- F) Conditions for Care of Falconry Raptors by a Person who does not have a falconry permit.
 - 1) A person who does not have a falconry permit may care for a falconer’s raptor(s) at the falconer’s facilities for up to 45 consecutive calendar days providing the following conditions are met:
 - a) The raptors remain on the falconers permit.
 - b) The raptors must remain in the falconer’s approved facilities.
 - c) The person(s) caring for the raptors may not fly them for any reason.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding take and possession of raptors from the wild.

- A) Falconers may take no more than two raptors from the wild each 365 consecutive day period beginning on the date of the first bird to use in falconry.
 - 1. If a falconer transfers a bird that he/she took from the wild to another falconer in the same year in which it was captured, the bird will count as one of the raptors the falconer is allowed to take from the wild that year; it will not count as a capture by the recipient, although it will always be considered a wild bird.
- B) Falconers may not intentionally capture a raptor species that their classification as a falconer does not allow them to possess for falconry. Raptors captured by

falconers who are not allowed to possess that species or age group must be immediately released.

- C) Raptors must be taken only in a humane manner. Any device used to take birds of prey shall be labeled with the name, address and phone number of the falconer, and must be attended to continually by the falconer. No eggs may be taken from raptor nests.
- D) Falconers must immediately release any bird captured unintentionally.
- E) Falconers may recapture a lost falconry bird for which he/she has submitted a form 3-186A at any time the recapture will not count as taking a bird from the wild.
- F) Falconers may recapture a raptor wearing falconry equipment or a captive bred raptor at any time—even if that falconer is not allowed to possess that species of raptor. The bird will not count against the falconer’s possession limit nor their capture from the wild limit. The falconer must report the recapture of the bird to the Commission’s Falconry Coordinator no more than five working days after the recapture and return the recaptured falconry bird to the person who lost it, if that person legally possessed it. Disposition of a bird whose legal possession cannot be determined will be at the discretion of the Commission’s Falconry Coordinator.
- G) Peregrine falcons banded with a Federal Bird Banding Laboratory band may not be taken from the wild, however other raptors banded with a federal bird banding lab may be taken if the falconer is authorized to take that species.
- H) If a falconer captures a peregrine falcon that has a colored alphanumeric research band on it or a research marking attached to it, it must be immediately released.
- I) Passage peregrines may be taken from Sept. 20-Oct. 20 by an Arkansas resident falconer who has been issued an Arkansas Passage Peregrine Falcon Permit by the Commission in accordance with requirements stated on that permit.

EXCEPTION:

- (1) If the falcon has a transmitter attached to it, the falconer has up to 30 days to contact the researcher to determine if he/she wishes to replace the transmitter or its batteries. If the researcher wishes to do so or to have the transmitter removed, the researcher or his/her designee can make the change or allow the falconer to do so before the falconer releases the falcon.
- J) If a falconer captures a raptor wearing a seamless metal band, a transmitter, or any other item identifying it as a falconry bird, the falconer must report the capture of the bird to the Commission’s Falconry Coordinator no more than five working days after the capture. The falconer must return the bird to the person who lost it, however if that person cannot possess the bird or does not want to possess it, the falconer may keep it. Disposition of a bird whose legal possession cannot be determined will be at the discretion of the Commission’s Falconry Coordinator. During the time period when a falconer keeps a bird for return to the person who lost it, the bird will not count toward the falconer’s possession limit or his/her limit on take of birds from the wild, as long as the falconer reports the bird to the Commission in five working days of capture.
- K) If a falconer captures a raptor with a band other than the Federal Bird Banding Lab aluminum band, research marking or transmitter attached to it, the falconer must report the band numbers and all other relevant information to the Federal Bird Banding Laboratory in five working days. If the bird is wearing a transmitter, the falconer may contact the researcher to determine if he/she wishes to replace it. The falconer is authorized to possess the bird for up to 30 days until the researcher or his/her designee does so, or until the falconer replaces it

himself. Disposition of the bird will be at the discretion of the Commission's Falconry Coordinator. Temporary possession will not count against the falconer's possession limit.

- L) General and/or Master Class falconers may remove nestlings from a nest or aerie in accordance with the following:
1. Take of a raptors from the wild must be reported in five days from the date at which take occurred by entering the required information in the electronic database at <http://permits.fws.gov/186A> or by submitting a paper form 3-186A to the Commission's Falconry Coordinator.
 2. A falconer present at the capture site, even if another person captures the bird for him/her, is considered the person who removes the bird from the wild and is responsible for filing a 3-186A form.
 3. If the falconer is not at the immediate location where the bird is taken from the wild, the person who removes the bird from the wild must be a General or Master Falconer and must report take of the bird. If that person then transfers the bird to the falconer, both must file 3-186A forms reporting the transaction no later than five days after the transfer. The bird will count as one of the two raptors the person who took it from the wild is allowed to capture in any year. The bird will not count as a bird the falconer took from the wild. The person who takes the bird from the wild must report the take even if he or she promptly transfers the bird to another falconer.
 4. If a falconer has a long-term or permanent physical impairment that prevents him/her from attending the capture of a species for falconry, a General or Master Falconer may capture the bird for the impaired falconer. The impaired falconer must file a 3-186A reporting take of a wild bird and the bird counts against the impaired falconer's total take of wild raptors for the year.
- M) Goshawks, Harris hawks, peregrine falcons, and gyrfalcons captured from the wild or acquired from a rehabilitator must be banded with a permanent non-reusable numbered U.S. Fish and Wildlife Service leg band provided to AGFC by the U.S. Fish and Wildlife Service; or implanted with an ISO--compliant microchip. Band numbers and/or microchip information must be reported to both AGFC's Falconry Coordinator and the U.S. Fish and Wildlife Service when acquisition of the bird is reported by the falconer no later than 10 days after acquisition.

EXCEPTION:

- (1) If a falconer documents that a raptor's health or injury problems are caused by the band, that documentation must be submitted to the Commission's Falconry Coordinator who will issue an exemption to the requirements for that raptor.
- 1) The falconer must keep a copy of the exemption paperwork on his person when transporting or flying that raptor
 - 2) if that bird is wild caught goshawk, Harris's hawk, peregrine falcon or gyrfalcon, the band must be replaced with an ISO--compliant microchip provided to the falconer through the Commission by the U.S. Fish and Wildlife Service.
- N) A raptor captured from the wild may not be banded with a seamless numbered band.
- O) Falconry bands may not be altered defaced or counterfeited, however removal of the rear tab on a band on a raptor taken from the wild, and smoothing the surface without affecting the integrity of the band or the numbering on it is permissible.

- P) Take of eyas (nestling raptors incapable of flight) birds is allowed between Jan. 1 and Aug. 1 of each year.
- Q) Take of passage (raptors fledged from the nest but less than 1 year of age) is allowed from June 15–March 1.
- Q) Take of a raptors from the wild must be reported in five days from the date at which take occurred by entering the required information in the electronic database at <http://permits.fws.gov/186A> or by submitting a paper form 3-186A to the Commission’s Falconry Coordinator.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding possession of raptors bred in captivity.

- A. Falconry raptors bred in captivity must be banded with a U.S. Fish and Wildlife Service seamless band or be micro-chipped.
 - 1. If the seamless band is removed or lost, the falconer must report it and request a replacement band from AGFC no less than 10 days after the band is removed or lost.
 - a) The required information must be reported electronically (<http://permits.fws.gov/186A>) immediately upon rebanding or microchipping or by submitted federal form 3-186-A to the AGFC Falconry Coordinator.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding possession of raptors transferred from migratory bird rehabilitators.

- A. Falconers may acquire a bird for falconry from a federally permitted migratory bird rehabilitator, if the falconer is permitted to possess that species of bird for falconry. Acquisition of a bird from a rehabilitator will count as one of the raptors the falconer is permitted to take from the wild. Transfer to the falconer is at the discretion of the permitted rehabilitator. Falconer must report acquisition of the bird using required reporting procedures.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding record keeping.

- A) Falconers must keep copies of all database submissions, including electronic and paper submissions, documenting take, transfer, loss, release, rebanding and/or microchipping of each falconry raptor until five years after the falconer has transferred or lost the bird, or the bird dies.
- B) All raptors acquired and disposed of must be reported in five days of the date when transaction or transition occurred by entering the required information in the electronic database at <http://permits.fws.gov/186A> or by submitting a paper form 3--186A to the Commission’s Falconry Coordinator.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding theft of a falconry bird.

- A) If a raptor possessed under a falconry permit is stolen, the falconer must report the theft to the Commission’s Falconry Coordinator and to the U.S. Fish and Wildlife Service Regional Law Enforcement office in five working days of the theft of the bird.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding Selling or Trading Raptors held under a Falconry Permit.

- A) Falconers may sell, purchase, barter, trade, and/or offer for sale, or purchase captive-bred raptors marked with a seamless metal bands to other falconry permittees who are authorized to possess them.
- B) Falconers may not purchase, sell, trade or barter wild raptors; they can only transfer them to another falconer or to a recipient who possess the necessary federal and state permits for that activity.
- C) Wild-caught falconry raptors may be transferred to a raptor propagation permit only after the bird has been used in falconry for at least two years or for one year for sharp-shinned hawks, Cooper's hawks, merlins and American kestrels.

EXCEPTION:

- (1) Wild-caught raptors that are less than two years of age or for one year for sharp-shinned hawks, Cooper's hawks, merlins and American kestrels, may be transferred to another permit type if the bird has been injured and a veterinarian or permitted migratory bird rehabilitator has determined that the raptor can no longer be flown for falconry. Falconer must provide a copy of the 3--186A form documenting acquisition of the bird by the propagators to the Federal Migratory Bird Permit office that administers the other permit type.
- D) Falconers may transfer captive-bred falconry raptors to another type of permit if the holder of the other permit type is authorized to possess the bird. Falconers must report the transfer on a 186A form in five days of the transfer.
- E) A surviving spouse, executor, administrator or other legal representative of a deceased falconry permittee may transfer any bird held by the permittee to another authorized permittee in 90 days of the falconer's death. After 90 days, the disposition of a bird held under the permit is at the discretion of the Commission's Falconry Coordinator.
- F) Falconers may use raptors held under a falconry permit in raptor propagation if the falconer or the person overseeing the propagation has the necessary permits if the following requirements are met.
 - 1) If the bird will be used for propagation for fewer than eight months a year, the falconer does not need to transfer the raptor from his permit.
 - 2) If the raptor is used for propagation for more than eight months per year, the bird must be transferred to a federal propagation permit and banded as required by federal raptor propagation regulations.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding Take of Prey by Falconry Raptors.

- A) Falconers may take wildlife only within the specific seasons and bag limits, except that squirrels and rabbits may be taken outside of the specified hunting season by falconry birds with a daily limit of one game mammal per raptor per day.
- B) If a falconry bird kills a prey animal that was not the falconer's intended prey, and if that kill was outside of the animal's legal open hunting season, the falconers may allow their falconry raptor to feed on the incidental kill but the falconer may not take the animal into possession.
- C) Falconers must ensure that their activities do not cause the take of a federal listed threatened or endangered species. "Take" under the federal Endangered Species Act means "to harass, pursue, hunt, shoot, wound, kill, trap, capture, or collect or attempt to engage in any such conduct". "Harass in this Act means any act that

may injure wildlife by disrupting normal behavior including breeding feeding or sheltering. "Harm" in this Act means an act that actually kills or injure wildlife.

- 1) Falconers must report the location of the take of any federally listed threatened or endangered species to the state's U.S. Fish and Wildlife Service Ecological Services field office.
- D) Falconry take of bird species for which a federal depredation order is in place is permitted. Falconers may use their falconry raptors to take any species listed in parts 50 CFR 21.23, 44, 45 of the federal register at any time in accordance with the conditions of the depredation order, however the falconer may not be paid for doing so.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding Release of Falconry Birds into the Wild and Falconry Training Techniques.

- A) The use of acceptable falconry training or conditioning practices includes but is not limited to, tame--hacking, the use of creance flying, lures, balloons or kites, flying falconry birds at pen-raised birds or birds not covered by the Migratory Treaty Act.
- B) Hacking of Falconry Raptors: General and Master Class falconers may condition raptors for falconry with the following requirements.
- 1) The raptor the falconer hacks must be a species the falconer is allowed to possess and counts against the falconer's possession limit.
 - 2) A hybrid raptor may be hacked if the raptor wearing two functioning radio transmitters.
 - 3) Hacking a raptor may not occur near a nesting area of a federally threatened or endangered bird species or in any location where the raptor is likely to harm a federally listed threatened or endangered species that might be disturbed or taken by the hacked falconry bird.
- C) Falconers may only release back to the wild in Arkansas, wild caught raptors native to the state. Non-native raptor species, hybrid raptor species and raptors bred in captivity may not be released back to the wild in Arkansas. Wild-caught raptors must be released at an appropriate time of year and an appropriate location and any and all bands and falconry equipment must be removed from the raptor prior to its release.
- D) When flown free, hybrid falcons must have at least two functioning radio transmitters attached to it to assist the falconer in locating the bird.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding migratory bird feather and carcass possession.

- A) A falconer may possess flight feathers for each species of raptor he or she currently and previously held on his/her permit for imping purposes.
- B) Falconers may give and/or receive feathers for imping from other permitted falconers, federally permitted wildlife rehabilitators, or federally permitted raptor propagators in the United States.
- C) Flight feathers for imping may not be purchased, sold or bartered.
- D) Falconers may donate feathers, except golden eagle feathers, to any person or institution with a permit to possess them or to anyone exempt from permit requirements under federal statute 21.12.
- E) If a falconer's permit expires or is revoked, the falconer must burn, bury or otherwise destroy imping feathers in their possession or donate the feathers to

- any person or institution with a permit to possess them or to anyone exempt from permit requirements under federal statute 21.12.
- F) Master Falconers in possession of a golden eagle must gather primary and secondary flight feathers and retrices from molted by their golden eagle(s) and store them for imping or send them to the National Eagle Repository.
 - G) Carcasses of falconry birds that die while in the falconer's possession may be burned, buried or otherwise destroyed and disposed of in 10 days of death or 10 days of necropsy by a veterinarian, or donated to any person or institution with a permit to possess them or donated to anyone exempt from permit requirements under federal statute 21.12.
 - H) Carcasses of euthanized raptors must be disposed of in a manner that will prevent scavenger from feeding on them. Flight feathers may be retained for imping purposes.

EXCPETIONS:

- (1) Carcasses of golden eagles must be sent to the National Eagle Repository.
- (2) Banded or microchipped falconry birds that die while in the falconer's possession may be kept by the falconer so that the feathers are available for imping or the falconer may have the body mounted by a taxidermist and the mount used in educational programs. Bands must remain on the body and microchips must left in place.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding Raptors Injured Due to a Falconer's Trapping Efforts.

- A) Falconers must do one of the following if a raptor is injured during trapping.
 - 1) Falconer may put the bird injured during trapping on his/her falconry permit and follow procedures outlined for reporting take of a bird from the wild falconry. The bird will count towards the falconers possession limit. The falconer must have the injured bird treated by a veterinarian or a permitted migratory bird rehabilitator and the falconer is responsible for the costs of care and rehabilitation of the bird.
 - 2) Falconer must give the bird directly (no more than 24 hours) to a veterinarian or permitted migratory bird rehabilitator. The bird will not count against the falconer's take or possession limits however the falconer is responsible for the costs of care and rehabilitation of the bird.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding assistance in the rehabilitation of raptors to prepare them for release according to the following requirements.

- A) General and Master Class falconers may assist federally permitted migratory bird rehabilitators to condition raptors in preparation for their release to the wild in accordance with the following requirements:
 - 1) The rehabilitator must provide the falconer with a letter or form that identifies the bird and explains that the falconer is assisting in its rehabilitation.
- B) The falconer does not have to meet the rehabilitator facility guidelines and may keep the rehabilitating raptor in his/her approved falconry facilities.
- C) The rehabilitating raptor will remain on the rehabilitator's permit and will not be added to the falconer's permit.
- D) The falconer must return any such bird that cannot be permanently released to the rehabilitator for placement in the 180 day timeframe in which the rehabilitator is

federally authorized to possess this bird, unless the issuing office authorized the rehabilitator to retain the bird longer than 180 days.

- E) The falconer must coordinate with the rehabilitator and release all releasable raptors to the wild or return them to the rehabilitator for release in the 180 day timeframe in which the rehabilitator is federally authorized to possess this bird, unless the issuing office authorized the rehabilitator to retain the bird longer than 180 days, or unless the rehabilitator transfer the bird to the falconer you to hold under his/her falconry permit.

Permit Requirements: It shall be unlawful for holders of Falconry Permits to fail to comply with the following requirements regarding Use of Falconry Raptors in Abatement and Education Activities.

- A) Falconers may use raptors possessed on their falconry permits in conservation education program presented in public venues follow without first obtaining a federal Education Permit if they abide by the following requirements:
1. Raptors used in the program must be on their falconry permit and used primarily for falconry.
 2. Apprentice falconers presenting educational programs must be under direct supervision of a General or Master Class falconer.
 3. If a fee is charged for presentation of a conservation education program, the fee may not exceed the amount required to recoup the falconer's cost of presenting the program.
 4. The presentation is required to address falconry and conservation education and may also include information about the biology, ecological roles, and conservation needs of raptors and other migratory birds.
 5. The falconer is responsibility for all liability associated with his/her conservation education activities.
 6. Falconers may allow photography, filming or other such uses of his/her falconry raptors to make movies or other sources of information on the practice of falconry or on the biology, ecological roles, and conservation needs of raptors and/or migratory birds however the falconer may not be paid for doing so.
 7. Falconers may not use their falconry raptors in movies commercials or other commercial ventures that are not related to falconry.

MINUTE ORDER NO: _____ SUBJECT: 2013 Trout Fishing and Turtle
Harvest Restrictions Regulations
Clarifications Adoption

DATE PASSED: 13-031
April 18, 2013

PAGE 1 of 2 PAGES LOCATION: Statewide

WHEREAS, the Arkansas Game and Fish Commission Fisheries Division has identified fishing regulation changes for optimal management of the state's fisheries; and

WHEREAS, the Fisheries Division specifically recommends the attached fishing regulation changes because (1) during the Code Book revision "waters from the state" was inadvertently deleted from the trout permit requirements and (2) clarification is needed for turtle harvest restrictions, which includes adding portions of Randolph County; and

WHEREAS, the attached regulations have been communicated through a variety of media avenues to sportsmen and the general public throughout the state for review and comment; and

WHEREAS, after carefully considering the recommendations of Commission staff and the Regulations Committee, as well as comments received from the public, the Commission has determined that the attached regulations promote sound wildlife conservation and management and are consistent with Amendment 35 of the Arkansas Constitution and that these regulations should now be approved for application statewide.

NOW, THEREFORE, BE IT ORDERED this 18th day of April 2013, that the Arkansas Game and Fish Commission hereby approves and adopts the attached regulations, which shall become effective immediately upon public filing or as soon thereafter as possible.

BE IT FURTHER ORDERED that the Commission staff is authorized to proceed with legally certifying and filing the attached regulations with the Secretary of State, State Library, and Bureau of Legislative Research and incorporating them into the Commission Code Book and Addendum.

Subject: Adoption of 2013 Fishing Regulation Clarifications

Submitted by: Mark Oliver
Chief

The Fisheries Division recommends the attached fishing regulation changes. The following pages include the recommended Code Book language to be adopted for trout permit requirements and turtle harvest restrictions. During the code book revision "waters of the state" was inadvertently deleted from the trout permit requirements. A clarification is needed for turtle harvest restrictions, which includes adding portions of Randolph County. This change should have been included in the fisheries regulation package the Commission approved last August. A Minute Order is attached for approval. All approved changes would go into effect April 18, 2013.
