Summary of Standards For Accreditation

This sets forth the standards of accreditation of public schools and school districts and describes the process of citing or placing schools or school districts in probationary status as well as outlining the enforcement actions that may be applied to schools or school districts who fail to meet the standards of accreditation.

Two existing rules (Standards of Accreditation of Arkansas Public Schools and Probationary Status and Accreditation of Schools) are being repealed and combined into one new rule (Standards of Accreditation of Arkansas Public Schools) in order to better meet the requirements of Act 1467.

The changes are as follows:

- Requires curriculum to be taught every year at every grade level with the exception of 1 unit of journalism, 1 unit of chemistry, 1 unit of physics, 1 unit Algebra II, 1 unit of pre-cal (to include trigonometry), and ½ unit of survey of fine arts or advanced art or music. This mainly impacts the middle level curriculum (grades 5-8). Previously this curriculum was required to be taught within the grade span (5-8). It is now required to be taught each year at each grade level.
- Requires the Department to monitor on site every other year rather than once every five years.
- Established the enforcement authority for standards violations.

Due to public comment, the changes are as follows:

- 15.03.1 (Licensure and Renewal Section) - Changes "Arkansas teaching license" to "Arkansas license" as required by law. Some positions may require a license but not necessarily a teaching license.
- 15.04.1 (Professional Development and In-Service Training Section) - Deletes this section due to redundancy. It is already in ACTAAP.
- 15.04.3 -Professional Development and In-Service Training Section - Adds "or approved" to the acceptable training required in this rule. Some districts provide quality professional development, and therefore should not be restricted to what the Department of Education may provide. This allows some latitude within this rule. The training can either be developed by the Department or must be approved by the Department.

CONTROVERSY STATEMENT

This is expected to be controversial. The requirement to teach the curriculum at each grade level for the 5-8 grade span could result in the need for additional staff and restructuring of time usage. The Middle Level Educators Association and the Middle level Administrators are reported to be against this.
